

Cashier Panel

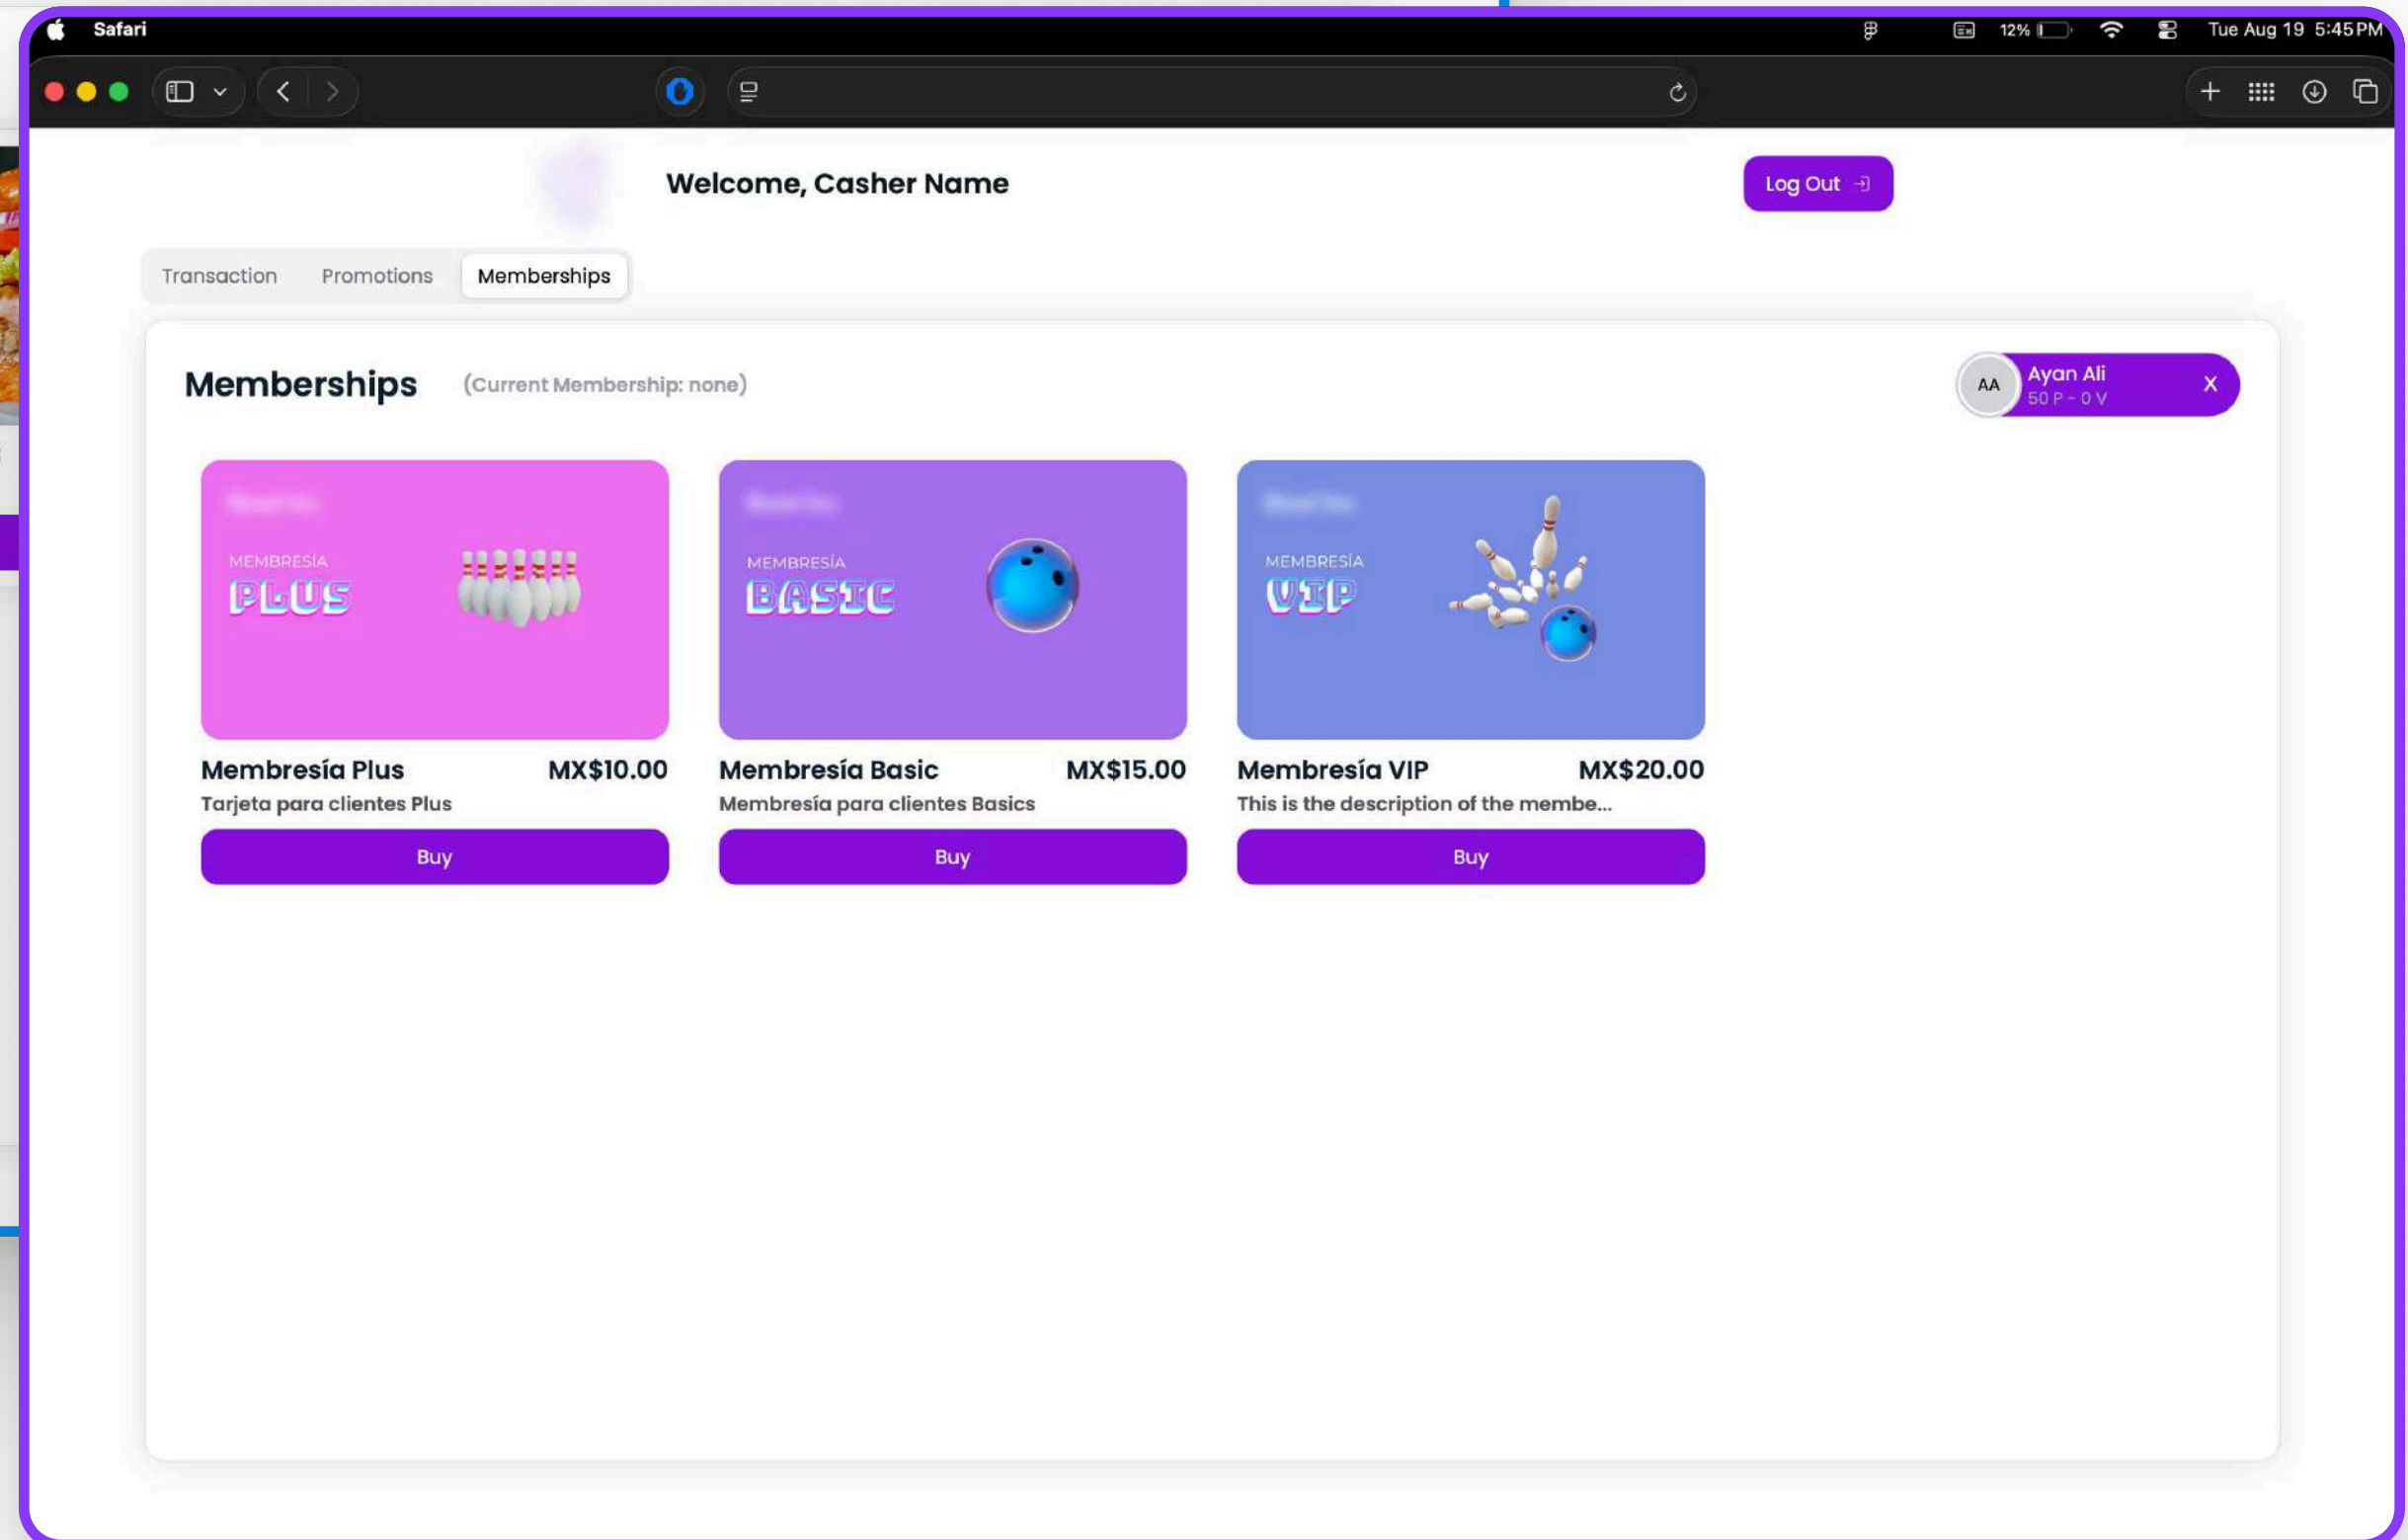

Record your loyalty sales. Offer promotions that are purchasable for the customer. Record membership sales.

After customer's QR Code is scanned. Cashier puts the sale id from the POS. These POS identifiers will be used to check what the customer bought and the points will be assigned according to this.

Cashier can purchase the promotions for the customer

Memberships can be an item inside the POS. When purchasing the membership cashier puts in the sale id from the POS
